Safekeeping fees

Safekeeping fee

Safekeeping fees are charged for **Securities** held on **Account**. Safekeeping fees are the provision and maintenance of securities accounts where it is carried out by **AIX CSD** acting as issuer CSD and refer to the servicing of the assets carried out by the **AIX CSD** acting as an investor CSD (as opposed to Issuer CSD). These fees are applicable to AIFC-registered securities and non AIFC-registered securities. Safekeeping fees are calculated in basis points per annum, calculation convention 365. Safekeeping fees are charged on a monthly basis and based on the monthly average depot value of the relevant securities held in all accounts with the **AIX CSD**.

Debentures

Scale Depot value * (in million USD)	Fee for the listed Securities (in bp per annum) of depot value	Fee for Securities other than listed Securities (in bp per annum) of depot value
Up to 100	0.7	0.84
From 100 up to 500	0.64	0.77
From 500 up to 1,000	0.58	0.70
From 1,000 up to 10,000	0.53	0.64
From 10,000 up to 50,000	0.47	0.56
From 50,000	0.42	0.50

Shares, depository receipts, ETFs, warrants, funds, structured products and any other Admitted Product

Scale Depot value * (in million USD)	Fee for the listed Securities (in bp per annum) of depot value	Fee for Securities other than listed Securities (in bp per annum) of depot value
Up to 100	1.55	1.86
From 100 up to 500	1.38	1.66
From 500 up to 1,000	1.04	1.25
From 1,000	0.70	0.84

Asset servicing fee

Asset servicing fees refers to AIX CSD costs for a servicing the assets carried out by **AIX**

CSD acting as investor CSD and applicable to non AIFC-registered securities only. Asset servicing fees are calculated in basis points per annum, calculation convention 365.

Debt instruments, warrants and ETF instruments	4 bp per annum of the monthly average depot value held, charged monthly
Shares, fund instruments and any other Admitted Products	7.5 bp per annum of the monthly average depot value held, charged monthly

The safekeeping fees, including Asset servicing fee, are charged on a monthly basis and based on the monthly average depot value of **Admitted Products** held in all accounts of given **Participant**.

The depot value of the **Admitted Products** is determined on a daily basis by:

- the market value determined by the closing price on **AIX** for that day, or
- if market value is not applicable, the available closing price at which **Admitted Products** were traded last on AIX is used for Shares and ETNs, the nominal value is used for debt instruments and base value² is used for other **Admitted Products**.

All resulting amounts will be converted into USD at the exchange rate of the NBK for that day and the monthly average depot value calculated.

The monthly average depot value is calculated from the average daily depot value in the subject month.

Finally, the safekeeping fee is calculated from the monthly average depot value in the subject month multiplied by the applicable basis points per annum (applied according to the table above) and divided by 12 months.

Safekeeping fee example:

A Participant holds 10,000,000 of **Admitted Product** during a month which average closing price was 15 USD every day. The **Admitted Product** were held on **Participant's** account for 20 business days out of 31 calendar days on that month.

$$\text{Monthly average depot value} = \frac{10,000,000 * \$15 * 20 \text{ days}}{31 \text{ days}} = \$ 96,774,193.55$$

Basis point = 0.9 (according to the table), less than 100mln USD.

$$\text{Safekeeping fee} = \frac{\$96,774,193.55 * 0.009\%}{12} = \$ 725.81$$

So, the Safekeeping fee **Participant** to pay for that month will be 725.81 USD.

The waiver of the Safekeeping fee, excluding the Asset servicing fee, is applicable for listed **Admitted Products** kept in a Nominee Account of a **Participant** for individuals.

² Information about base value Notified by AIX CSD to the Participants for the respective Admitted Product.

The asset servicing fee may be applicable in the event of an additional operational, reconciliation, and reporting burden associated with maintaining **Admitted Products** that are defined as Securities other than Listed Securities registered in the **AIFC** within the **AIX** market infrastructure, in accordance with a **Notice** issued by **AIX CSD**.
